## The Manual of Scientific Style: A Guide for Authors, Editors, and Researchers

Much like the *Chicago Manual of Style*, *The Manual of Scientific Style* addresses all stylistic matters in the relevant disciplines of physical and biological science, medicine, health, and technology. It presents consistent guidelines for text, data, and graphics, providing a comprehensive and authoritative style manual that can be used by the professional scientist, science editor, general editor, science writer, and researcher.

- Scientific disciplines treated independently, with notes where variances occur in the same linguistic areas
- Organization and directives designed to assist readers in finding the precise usage rule or convention
- A focus on American usage in rules and formulations with noted differences between American and British usage
- Differences in the various levels of scientific discourse addressed in a variety of settings in which science writing appears
- Instruction and guidance on the means of improving clarity, precision, and effectiveness of science writing, from its most technical to its most popular
