Bilingual Health Communication: Working with Interpreters in Cross-Cultural Care Elaine Hsieh

This book examines interpreter-mediated medical encounters and focuses primarily on the phenomenon of bilingual health care. It highlights the interactive and coordinated nature of interpreter-mediated interactions. Elaine Hsieh has put together over 15 hours of interpreter-mediated medical encounters, interview data with 26 interpreters from 17 different cultures/languages, 39 health care providers from 5 clinical specialties, and surveys of 293 providers from 5 clinical specialties. The depth and richness of the data allows for the presentation of a theoretical framework that is not restricted by language combination or clinical contexts. This will be the first book of its kind that includes not only interpreters' perspectives but also the needs and perspectives of providers from various clinical specialties.

Bilingual Health Communication presents an opportunity to lay out a new theoretical framework related to bilingual health care and connects the latest findings from multiple disciplines. This volume presents future research directions that promise development for both theory and practice in the field.

Gustavo Cyr:

As a college student exactly feel bored to help reading. If their teacher expected them to go to the library or to make summary for some guide, they are complained. Just very little students that has reading's heart or real their interest. They just do what the teacher want, like asked to go to the library. They go to generally there but nothing reading very seriously. Any students feel that reading through is not important, boring along with can't see colorful photos on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this Bilingual Health Communication: Working with Interpreters in Cross-Cultural Care can make you sense more interested to read.
