Space Rocks! Tom O'Donnell

The thrilling intergalactic adventures of four kids in space--as told by a hilarious alien!

It all happened because of Feeney's Original Astronaut Ice Cream bars. Those accursed pink treats entranced me with their sugary magic! But I digress . . .

Life on Gelo was fine until the fur-headed "humans" arrived. They invaded our peaceful asteroid with their loud drill machines and their endless greed, stealing our precious Iridium to take back to their strange blue-and-green planet.

Then the mothership took off and left four *little* fur-heads marooned here. But thank Jalasu Jhuk that Hollins, Becky, Nicki, and Little Gus turned out to be pretty cool. They have sweet gadgets like hologram games and rocket bikes. Plus they can pilot starships!

But there's plenty the young humans don't know, like how to fight a ferocious thyss-cat or ride an usk-lizard or navigate the twisting caverns of my world. And they are truly unprepared for my secret Xotonian stink gland!

Luckily the Earthlings have me, Chorkle, and all five of my eyes to look after them.

If only I knew how to help them get back home . . .

From reader reviews:

Carolyn Robles:

Book is actually written, printed, or highlighted for everything. You can know everything you want by a guide. Book has a different type. As it is known to us that book is important issue to bring us around the world. Close to that you can your reading ability was fluently. A e-book Space Rocks! will make you to always be smarter. You can feel considerably more confidence if you can know about every little thing. But some of you think in which open or reading a new book make you bored. It is far from make you fun. Why they may be thought like that? Have you searching for best book or appropriate book with you?

Nelson Berg:

Reading a book to get new life style in this yr; every people loves to learn a book. When you learn a book you can get a great deal of benefit. When you read books, you can improve your knowledge, mainly because book has a lot of information upon it. The information that you will get depend on what forms of book that you have read. If you wish to get information about your examine, you can read education books, but if you act like you want to entertain yourself look for a fiction books, this sort of us novel, comics, and also soon. The Space Rocks! will give you a new experience in reading a book.

Jennifer Ruiz:

As a scholar exactly feel bored to reading. If their teacher inquired them to go to the library or make summary for some book, they are complained. Just tiny students that has reading's spirit or real their interest. They just do what the teacher want, like asked to the library. They go to at this time there but nothing reading critically. Any students feel that reading through is not important, boring in addition to can't see colorful photos on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore this Space Rocks! can make you truly feel more interested to read.

Ellis Pauling:

Reserve is one of source of know-how. We can add our expertise from it. Not only for students but additionally native or citizen have to have book to know the up-date information of year to year. As we know those ebooks have many advantages. Beside most of us add our knowledge, can also bring us to around the world. From the book Space Rocks! we can consider more advantage. Don't you to definitely be creative people? To become creative person must like to read a book. Just choose the best book that acceptable with your aim. Don't be doubt to change your life at this time book Space Rocks!. You can more appealing than now.
