Insurance fraud is a growing problem on a global scale. The ABI estimates that fraudulent insurance claims on motor and household policies alone cost insurers in excess of £1 billion every year. This book provides an analysis of the insurance industry's response to the problem and examines fraud from legal and practical perspectives to determine how to manage and reduce fraud. Key issues covered include: fraud in the insurance and reinsurance context, a look at industry-wide initiatives and individual insurance companies' approaches to the problem, consideration of recent legal developments and a look at how insurance fraud is tackled in other jurisdictions. Includes a chapter on marine insurance fraud.
