Information Fusion and Geographic Information Systems (Lecture Notes in Geoinformation and Cartography) Vasily V. Popovich, Manfred Schrenk, Kyrill V. Korolenko

Workshop Proceedings introduce research results received in the areas of information integration, development of GIS and GIS-applications for a wide spectrum of information systems varying considerably in purpose and scale. The new class of GIS - intelligent GIS - is considered, including principles of their building and programming technologies. Special attention is drawn to ontologies' development and their use in GIS and GIS-applications.
