It seems that in the world of counseling there are certain “unwritten rules” to be a successful counselor. These rules aren’t taught in graduate school, and so the counselor is left to either somehow figure out the rules on their own or are doomed to fail as a counselor. It seems that every profession has its “tricks of the trade”, that once learned, makes work easier and provides success. After I began my career as a therapist, I was left wondering “what are the tricks of the trade of the counseling profession?” and spent the next several years searching for them. This book is written for both beginners and experienced therapists alike. My goal is to help others discover the secrets to becoming a top-notch therapist so that they may be able to experience the success and personal satisfaction they had sought when they decided to become therapists. Those that are willing to invest the effort will find themselves with the opportunities and rewards that come from being a top-notch therapist.
