Dark Mirror: The Medieval Origins of Anti-Jewish Iconography Sara Lipton

In *Dark Mirror*, Sara Lipton offers a fascinating examination of the emergence of anti-Semitic iconography in the Middle Ages

The straggly beard, the hooked nose, the bag of coins, and gaudy apparel—the religious artists of medieval Christendom had no shortage of virulent symbols for identifying Jews. Yet, hateful as these depictions were, the story they tell is not as simple as it first appears.

Drawing on a wide range of primary sources, Lipton argues that these visual stereotypes were neither an inevitable outgrowth of Christian theology nor a simple reflection of medieval prejudices. Instead, she maps out the complex relationship between medieval Christians' religious ideas, social experience, and developing artistic practices that drove their depiction of Jews from benign, if exoticized, figures connoting ancient wisdom to increasingly vicious portrayals inspired by (and designed to provoke) fear and hostility. At the heart of this lushly illustrated and meticulously researched work are questions that have occupied scholars for ages—why did Jews become such powerful and poisonous symbols in medieval art? Why were Jews associated with certain objects, symbols, actions, and deficiencies? And what were the effects of such portrayals—not only in medieval society, but throughout Western history? What we find is that the image of the Jew in medieval art was not a portrait of actual neighbors or even imagined others, but a cloudy glass into which Christendom gazed to find a distorted, phantasmagoric rendering of itself.
