Osama's Revenge: THE NEXT 9/11 : What the Media and the Government Haven't Told You Paul L. Williams

The author reveals the potential for nuclear terrorism on U.S. soil in this shocking exposé. Based on the findings of U.S., Israeli, Pakistani, and U.K. intelligence, Williams argues that the theft of tactical nuclear weapons from Russian arsenals have in all likelihood made their way to terrorist cells throughout the United States in preparation for the next attack.

Although the media have reported on some of these threatening developments and government insiders have acknowledged the threat of nuclear attack, no one until now has put all the pieces together in a coherent, no-nonsense way. Williams makes a persuasive case that terrorists have the motive and the means and are waiting for the right opportunity to launch an apocalyptic attack against the "Great Satan" of America.
