Blinding as a Solution to Bias: Strengthening Biomedical Science, Forensic Science, and Law

Blinding as a Solution to Bias: Strengthening Biomedical Science, Forensic Science, and Law

What information should jurors have during court proceedings to render a just decision? Should politicians know who is donating money to their campaigns? Will scientists draw biased conclusions about drug efficacy when they know more about the patient or study population? The potential for bias in decision-making by physicians, lawyers, politicians, and scientists has been recognized for hundreds of years and drawn attention from media and scholars seeking to understand the role that conflicts of interests and other psychological processes play. However, commonly proposed solutions to biased decision-making, such as transparency (disclosing conflicts) or exclusion (avoiding conflicts) do not directly solve the underlying problem of bias and may have unintended consequences.

Robertson and Kesselheim bring together a renowned group of interdisciplinary scholars to consider another way to reduce the risk of biased decision-making: blinding. What are the advantages and limitations of blinding? How can we quantify the biases in unblinded research? Can we develop new ways to blind decision-makers? What are the ethical problems with withholding information from decision-makers in the course of blinding? How can blinding be adapted to legal and scientific procedures and in institutions not previously open to this approach? Fundamentally, these sorts of questions—about who needs to know what—open new doors of inquiry for the design of scientific research studies, regulatory institutions, and courts.

The volume surveys the theory, practice, and future of blinding, drawing upon leading authors with a diverse range of methodologies and areas of expertise, including forensic sciences, medicine, law, philosophy, economics, psychology, sociology, and statistics.

- Introduces readers to the primary policy issue this book seeks to address: biased decision-making.
- Provides a focus on blinding as a solution to bias, which has applicability in many domains.
- Traces the development of blinding as a solution to bias, and explores the different ways blinding has been employed.
- Includes case studies to explore particular uses of blinding for statisticians, radiologists, and fingerprint examiners, and whether the jurors and judges who rely upon them will value and understand blinding.

From reader reviews:

William Chapman:

Why don't make it to be your habit? Right now, try to prepare your time to do the important behave, like looking for your favorite reserve and reading a guide. Beside you can solve your condition; you can add your knowledge by the publication entitled Blinding as a Solution to Bias: Strengthening Biomedical Science, Forensic Science, and Law. Try to face the book Blinding as a Solution to Bias: Strengthening Biomedical Science, Forensic Science, and Law as your pal. It means that it can being your friend when you truly feel alone and beside that course make you smarter than in the past. Yeah, it is very fortunated to suit your needs. The book makes you much more confidence because you can know everything by the book. So , we should make new experience in addition to knowledge with this book.

Justin Fernandez:

Why? Because this Blinding as a Solution to Bias: Strengthening Biomedical Science, Forensic Science, and Law is an unordinary book that the inside of the guide waiting for you to snap the idea but latter it will zap you with the secret it inside. Reading this book adjacent to it was fantastic author who have write the book in such remarkable way makes the content inside easier to understand, entertaining method but still convey the meaning totally. So , it is good for you for not hesitating having this any longer or you going to regret it. This book will give you a lot of rewards than the other book include such as help improving your ability and your critical thinking approach. So , still want to hold up having that book? If I had been you I will go to the book store hurriedly.

William Copeland:

The book untitled Blinding as a Solution to Bias: Strengthening Biomedical Science, Forensic Science, and Law contain a lot of information on the item. The writer explains the woman idea with easy way. The language is very straightforward all the people, so do certainly not worry, you can easy to read it. The book was published by famous author. The author will bring you in the new era of literary works. You can read this book because you can continue reading your smart phone, or program, so you can read the book throughout anywhere and anytime.
