M. Riad El-Ghonemy

The Crisis of Rural Poverty and Hunger: An Essay on the Complementarity between Market- and Government-Led Land Reform for its Resolution (Routledge Studies in Development Economics) M. Riad El-Ghonemy

M. Riad El-Ghonemy argues that if current trends in government-led and market based land reforms persist the rural poor population in developing countries will continue to rise.

Based on nearly half a century of academic and field research this valuable work presents compelling evidence on persistent rural poverty, hunger and increased inequality in developing countries over the last thirty years. The book furthers the debate with sixteen detailed case studies and looks beyond the typical views of the roles of the state and the market on land reform.

The Crisis of Rural Poverty and Hunger contains comprehensive case studies including countries such as China, Korea and Honduras provides bases for discussions of government-mandated land reform, pro-active participation of NGOs and facilitated functions of the market mechanism. This book is essential reading for undergraduate and postgraduate students interested in the fields of rural and agricultural development, development economics and geography.
