*Leading on Inclusion: Dilemmas, debates and new perspectives* critically examines the current theory and legislative context of special educational needs and disability, and explores the enduring issues and opportunities that will affect future practice in all schools.

- the voice of young people
- whole school development and planning for inclusion
- educational change within the context of inclusion
- the pros and cons of multi-professional working
- inclusive and ethical research
- international perspectives on inclusion, SEN and disability
- the development of teacher education and the notion of ‘joined up’ thinking.

This forward-thinking and rigorously researched book will be essential reading for students, teachers undertaking school-based training, SENCOs, inclusion managers, higher education tutors and anyone with a professional interest in the future for inclusive education.
