The Printing Revolution in Early Modern Europe (Canto Classics) Elizabeth L. Eisenstein

In 1979 Elizabeth Eisenstein provided the first full-scale treatment of the fifteenth-century printing revolution in the West in her monumental two-volume work, *The Printing Press as an Agent of Change*. This abridged edition, after summarising the initial changes introduced by the establishment of printing shops, goes on to discuss how printing challenged traditional institutions and affected three major cultural movements: the Renaissance, the Reformation and the rise of modern science. Also included is a later essay which aims to demonstrate that the cumulative processes created by printing are likely to persist despite the recent development of new communications technologies.
