As a student, I exactly feel bored for you to read. If their teacher inquired them to go to the library or even make a summary for some e-book, they are complained. Just minor students that have reading's soul or real their hobby. They just do what the educator wants, like asked to the library. They go to right now there but nothing reading significantly. Any student feels that reading is not important, boring along with can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important in your case.
