A critical reference tool for any aeronautical navigator, the ninth edition of the *Aeronautical Chart User's Guide* presents the most up-to-date information on charts adhering to Visual Flight Rule (VFR) and Instrument Flying Rule (IFR). Hundreds of color images throughout the book are paired with easy-to-understand explanations and definitions. This concise guide allows pilots and students to successfully pre-plan flight paths through any type of environment from man-made obstacles to natural terrain. In addition, the updated *Aeronautical Chart User's Guide* is a great study aid for current pilots who are preparing for additional certification and for potential pilots who are interested in applying for their first license.
