## **Introducing Just Sustainabilities** Julian Agyeman

This unique and insightful text offers an exploration of the origins and subsequent development of the concept of just sustainability.

*Introducing Just Sustainabilities* discusses key topics, such as food justice, sovereignty and urban agriculture; community, space, place(making) and spatial justice; the democratization of our streets and public spaces; how to create culturally inclusive spaces; intercultural cities and social inclusion; green-collar jobs and the just transition; and alternative economic models, such as co-production. With a specific focus on solutions-oriented policy and planning initiatives that specifically address issues of equity and justice within the context of developing sustainable communities, this is the essential introduction to just sustainabilities.
