Historical Land Use/Land Cover Classification Using Remote Sensing: A Case Study of the Euphrates River Basin in Syria (SpringerBriefs in Geography) Wafi Al-Fares

Although the development of remote sensing techniques focuses greatly on construction of new sensors with higher spatial and spectral resolution, it is advisable to also use data of older sensors (especially, the LANDSAT-mission) when the historical mapping of land use/land cover and monitoring of their dynamics are needed. Using data from LANDSAT missions as well as from Terra (ASTER) Sensors, the authors shows in his book maps of historical land cover changes with a focus on agricultural irrigation projects.

The kernel of this study was whether, how and to what extent applying the various remotely sensed data that were used here, would be an effective approach to classify the historical and current land use/land cover, to monitor the dynamics of land use/land cover during the last four decades, to map the development of the irrigation areas, and to classify the major strategic winter- and summer-irrigated agricultural crops in the study area of the Euphrates River Basin.

From reader reviews:

Francis Mason:

Do you have favorite book? In case you have, what is your favorite's book? Publication is very important thing for us to be aware of everything in the world. Each e-book has different aim or perhaps goal; it means that guide has different type. Some people sense enjoy to spend their time to read a book. They are really reading whatever they get because their hobby is actually reading a book. Consider the person who don't like examining a book? Sometime, man feel need book once they found difficult problem as well as exercise. Well, probably you'll have this Historical Land Use/Land Cover Classification Using Remote Sensing: A Case Study of the Euphrates River Basin in Syria (SpringerBriefs in Geography).

Omar Carter:

The experience that you get from Historical Land Use/Land Cover Classification Using Remote Sensing: A Case Study of the Euphrates River Basin in Syria (SpringerBriefs in Geography) could be the more deep you excavating the information that hide inside the words the more you get interested in reading it. It does not mean that this book is hard to know but Historical Land Use/Land Cover Classification Using Remote Sensing: A Case Study of the Euphrates River Basin in Syria (SpringerBriefs in Geography) giving you thrill feeling of reading. The copy writer conveys their point in particular way that can be understood by anyone who read it because the author of this e-book is well-known enough. This book also makes your vocabulary increase well. Therefore it is easy to understand then can go with you, both in printed or e-book style are available. We suggest you for having this specific Historical Land Use/Land Cover Classification Using Remote Sensing: A Case Study of the Euphrates River Basin in Syria (SpringerBriefs in Geography) instantly.

Lynn Hardie:

Reading can called brain hangout, why? Because when you are reading a book particularly book entitled Historical Land Use/Land Cover Classification Using Remote Sensing: A Case Study of the Euphrates River Basin in Syria (SpringerBriefs in Geography) the mind will drift away trough every dimension, wandering in each aspect that maybe unfamiliar for but surely might be your mind friends. Imaging every single word written in a book then become one application form conclusion and explanation which maybe you never get just before. The Historical Land Use/Land Cover Classification Using Remote Sensing: A Case Study of the Euphrates River Basin in Syria (SpringerBriefs in Geography) giving you one more experience more than blown away your head but also giving you useful info for your better life in this era. So now let us present to you the relaxing pattern is your body and mind will be pleased when you are finished studying it, like winning a casino game. Do you want to try this extraordinary paying spare time activity?

Roderick Grubb:

Do you have something that suits you such as book? The guide lovers usually prefer to opt for book like comic, brief story and the biggest an example may be novel. Now, why not attempting Historical Land Use/Land Cover Classification Using Remote Sensing: A Case Study of the Euphrates River Basin in Syria (SpringerBriefs in Geography) that give your satisfaction preference will be satisfied by reading this book. Reading behavior all over the world can be said as the opportunity for people to know world much better then how they react when it comes to the world. It can't be claimed constantly that reading practice only for the geeky particular person but for all of you who wants to possibly be success person. So , for every you who want to start studying as your good habit, you may pick Historical Land Use/Land Cover Classification Using Remote Sensing: A Case Study of the Euphrates River Basin in Syria (SpringerBriefs in Geography) become your starter.
